

Chapter 2: Grants Management Overview

This chapter provides an overview of the grants management process. [Section 2.1](#) describes the mission and organizational structure of the State of Arizona. It also describes the roles and responsibilities of the various State of Arizona departments, agencies, boards, and commissions, and support organizations involved in the grants management process. [Section 2.2](#) provides an overview of the basic stages of the grants management process: establishment of grant needs and priorities; opportunity research; opportunity pursuance and vetting; application development and submission; funding decision notification; award set-up; grant implementation; and grant closeout.
