

# **Using eCivis' Organization Funding Capability:**

## ***State of Arizona Guidance***

State of Arizona  
Department of Administration (DOA)  
Office of Grants and Federal Resources (GFR)

May 6, 2015

## **PREFACE**

This document is issued to further assist State employees who are using eCivis for federal and non-federal grant assistance, regarding procedures that must be followed to comply with Presidential Executive Order (E. O.) 12372 signed by President Reagan on July 24, 1982 and State Executive Order 2013-09 signed by Governor Brewer on October 28, 2013.

If you have questions, please call Matthew Hanson, Statewide Grant Administrator, at GFR, within DOA, at (602) 542-7567 or e-mail him at [Matthew.Hanson@azdoa.gov](mailto:Matthew.Hanson@azdoa.gov).

## I. Background

eCivis lists many federal and non-federal funding opportunities, including those available from State of Arizona agencies. However, funding opportunities that do not have a Catalog of Federal Domestic Assistance (CFDA) number and do not require a formal application may not be listed. In order to provide flexibility in adding funding opportunities not listed in eCivis, the system includes an **Organization Funding** function. Additionally, State agencies may use that functionality to add non-traditional or state specific funding opportunities to enhance the agency's project management capabilities within eCivis.

Since the State is implementing eCivis and BREAZ to improve its grants and fiscal management capabilities, State agencies will find that using eCivis' **Organization Funding** functionality will significantly improve efficiency and their ability to comply with other requirements, like those established by the E.O. 12372, while avoiding duplication of efforts.

As required by the *User Manual for State Single Point of Contact (SPOC) Procedures in Arizona*, the Intergovernmental Review should be completed before an application or a request for funds is submitted to the federal agency. However, our office realizes that this cannot always be done; therefore, we will accept simultaneous submissions.

The procedures for State agencies are as follows:

All state agencies must go through the Intergovernmental Review process regardless of whether the federal program is covered under the Presidential E.O.

**The E. O. shall be interpreted as including all types of federal assistance (grants, cooperative agreements, contracts, reimbursable agreements, etc.), whether formulaic or competitive and whether a formal application is required or not, and whether there is a mandatory or optional state match (in-kind or cash).**

## II. Regular eCivis Usage

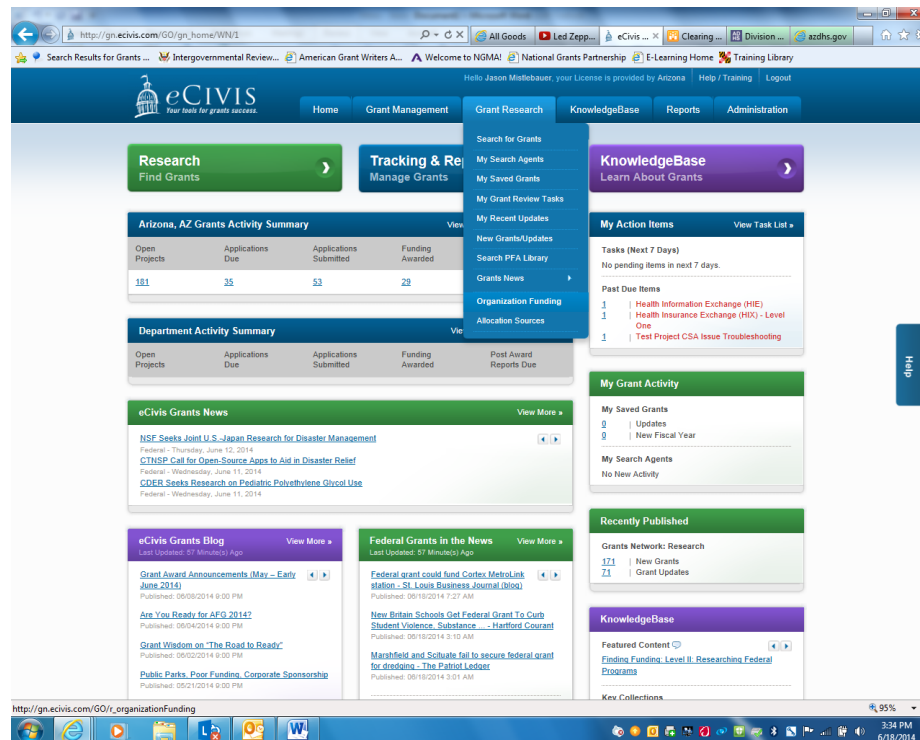

Any funding opportunity that has a CFDA number and/or requires a formal application process should be listed within eCivis' **Search for Grants** functionality regardless of the funder (i.e. Federal, State, or local governments, and foundations) and funding process (i.e. competitive or non-competitive). If the funding opportunity is not listed, please contact GFR at (602) 542-7567 or by e-mail at [Matthew.Hanson@azdoa.gov](mailto:Matthew.Hanson@azdoa.gov). Upon GFR's acknowledgement of your notification, GFR will work with eCivis to add it to the system as soon as possible (typically within one business day).

If the funding opportunity already exists within eCivis, then the user should simply assign the desired funding opportunity to either a previously or newly created project.

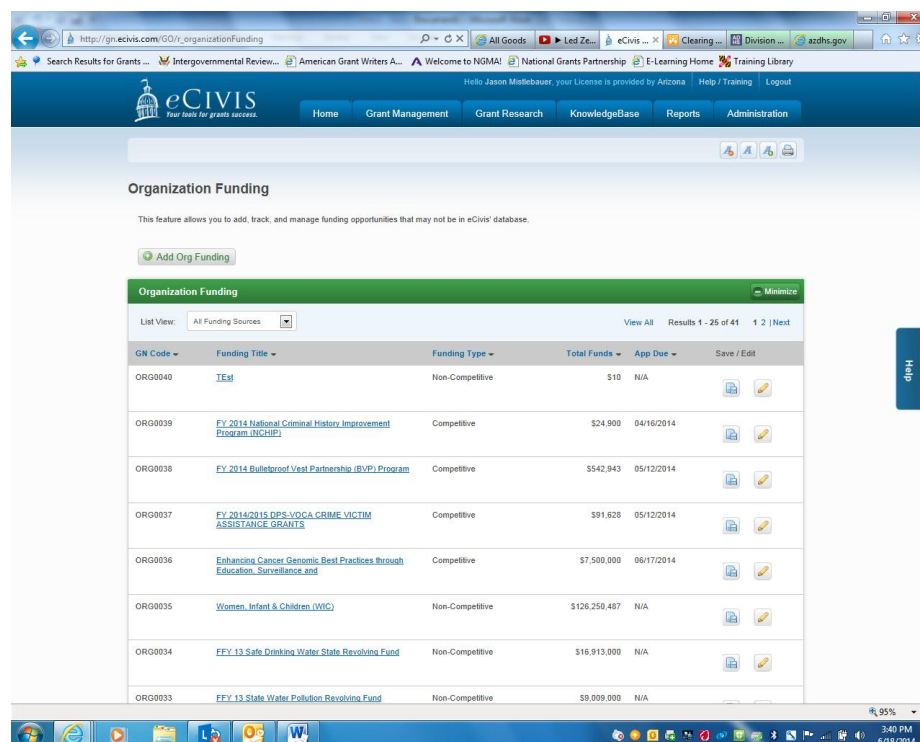

## III. eCivis' Organization Funding Usage

The **Organization Funding** functionality should be used for federal and non-federal funding sources that do **not** have a CFDA number and do **not** require a formal application process. Additionally, non-traditional or state specific funding sources (e.g. Interagency Services Agreement or ISA, Intergovernmental Agreement or IGA, contract, technical assistance, donation, etc.) may be added using this functionality. Note that a funding opportunity publicly announced by a State agency requiring an application should be listed in eCivis. In those instances, the **Organization Funding** functionality should not be used; if the funding opportunity is not listed in eCivis, it should be added following the **Regular eCivis Usage** instructions.

Once a user is logged onto eCivis, under the **Grant Research** tab menu at the top of the user's homepage, s/he can click on **Organization Funding** to begin the process.

The user will be taken to the **Organization Funding** page where s/he will click on the “Add Org Funding” box at the top of the page.

At this point, a user will need to decide whether the funding opportunity is “**Competitive**” or “**Non-Competitive**” with the only difference within eCivis being that by choosing “**Competitive**”, a user will be asked for an “**Application Due**” date.

The screenshot shows a web browser window displaying the eCivis application. The address bar shows the URL: [http://gncivis.com/GO/ty\\_orgGrantAddEditForm/GRANTID/0](http://gncivis.com/GO/ty_orgGrantAddEditForm/GRANTID/0). The browser has several tabs open, including 'All Goods', 'Led Ze...', 'eCivis ...', 'Clearing ...', 'Division ...', and 'azdhs.gov'. The eCivis header includes the logo, the tagline 'Your tools for grants success', and navigation links: Home, Grant Management, Grant Research, KnowledgeBase, Reports, and Administration. A user greeting 'Hello Jason Middlebauer, your License is provided by Arizona' and links for 'Help / Training' and 'Logout' are also present. The main content area is titled 'Add Organization Funding' and contains a section 'Select Funding Process' with two radio button options: 'Competitive Funding' and 'Non-Competitive Funding'. The footer of the application includes links for 'Grants Network Home', 'Grant Management', 'Grant Research', 'KnowledgeBase', 'Release Notes', 'License Agreement', 'Contact Us', and 'Logout'. A copyright notice 'Copyright © 2014 eCivis, Inc. All rights reserved.' is visible. The Windows taskbar at the bottom shows the system clock as 3:41 PM on 6/28/2014.

## Competitive Funding:

The screenshot shows the eCIVIS web application interface for adding organization funding. The browser address bar displays <http://gncivis.com/GO/ib.orgGrantAddEditForm/GRANTID/0>. The page title is "Add Organization Funding".

<input type="checkbox"/> Community Development	<input type="checkbox"/> Housing	<input type="checkbox"/> Science/Technology

The **Funding Title** name selected should include the type of funding instrument used (i.e. Interagency Services Agreement or ISA, Intergovernmental Agreement or IGA, contract, etc.). For example, a title could be *Health Insurance Exchange ISA with Governor's Office*.

**Fiscal Year** is a drop down menu with 2000 through 2025 listed currently, but that will be updated periodically by eCivis.

**Funding Type** is a drop down menu with the following options:

- County/Regional
- Federal
- Foundation
- Other
- State

A user should select the immediate source from which the user's agency received the funding. From the example above (*Health Insurance Exchange ISA with Governor's Office*), the *Governor's Office* is the prime recipient of the federal funding and via this *ISA* is the immediate source; therefore, it would be a "State" **Funding Type** for the agency creating the **Organization Funding** in eCivis. Once the **Funding Type** has been selected, a user will have subcategories to select from if desired or known e.g. "Earmark", "Formula", or "Pass-through." Again, it is not required to select one of these.

The **Grantor** text box should be used to identify the funder. Again, in the example above, it would be the *AZ Governor's Office*. **PLEASE SEE PAGES 9 -12 OF THIS DOCUMENT AS THESE FEDERAL AND STATE AGENCY NAMES WILL BE THE REQUIRED NAMING CONVENTIONS TO USE FOR THIS TEXT BOX. UPDATES WILL BE MAINTAINED ON OUR WEBSITE AT:**

- **FEDERAL AGENCIES:**  
[https://grants.az.gov/sites/default/files/eCivis%20Organization%20Funding%20-%20Federal%20Agency%20Naming%20Convention\\_0.pdf](https://grants.az.gov/sites/default/files/eCivis%20Organization%20Funding%20-%20Federal%20Agency%20Naming%20Convention_0.pdf)
- **STATE AGENCIES:**  
[https://grants.az.gov/sites/default/files/eCivis%20Organization%20Funding%20-%20State%20Agency%20Naming%20Convention\\_0.pdf](https://grants.az.gov/sites/default/files/eCivis%20Organization%20Funding%20-%20State%20Agency%20Naming%20Convention_0.pdf)

**IF A FEDERAL OR STATE GRANTOR IS NOT LISTED, PLEASE CONTACT OUR OFFICE AT (602) 542-6435 OR (602) 542-7567.**

**FAIN** (Federal Award Identification Number) text box can be left blank as this would only apply to the prime recipient of the federal award (if applicable).

Depending on the **Funding Type** chosen, the appropriate US Postal Service state abbreviation should be entered in the **State ID** text box (this option is only present when "State" **Funding Type** is selected).

If federally funded, the **CFDA Number** should be listed within the funding instrument (ISA, IGA, etc.) and entered in the text box.

The appropriate three (3) letter AFIS Agency Code of the funder should be entered in the **Organization ID** text box. Again, from the example above, it would be GVA. **PLEASE SEE PAGES 9 -12 OF THIS DOCUMENT THAT LISTS ALL STATE AGENCIES AND USE THE APPROPRIATE CODE FROM THE "STATE AGENCY'S 3-LETTER AFIS CODE" COLUMN. AGAIN, UPDATES TO THIS LIST WILL BE MAINTAINED ON OUR WEBSITE.**

The **Total Funds** text box should list the total amount of funding provided to the user's agency. From the example above, it should be stated within the *ISA* and that should be the amount entered into the **Total Funds** box.

**Matching Required** is a drop down menu with the following options:

- Yes
- No
- Recommended

Again, the user's funding instrument should state whether match is required or not and how much.

**Match Type** is a drop down menu with the following options:

- Cash
- In-Kind
- Cash/In-Kind

Much like **Matching Required**, the funding instrument should state acceptable **Match Type**.

A user will also need to input the **Summary**, **Categories**, and **Eligibility** information.

The screenshot shows a web browser window with the URL <http://gncivis.com/GO/ty.orgGrantAddEditForm/GRANTID/9>. The page contains several sections:

- Summary:** A text box for a brief overview of activities, with a 5000 character limit.
- Categories:** A grid of checkboxes for various categories including Agriculture, Animal Welfare, Arts & Culture, Community Development, Disaster Preparedness, Domestic Prep./Homeland Security, Economic Development, Education, Energy, Environment/Natural Resources, Fire/EMS, Hazardous Waste/Brownfields, Health, Prevention/Treatment, Health, Research, Housing, Human Services, IT/Telecommunications, Justice, Prevention/Correction/Rehab, Justice, Victims, Justice, Youth, Law Enforcement, Libraries, Parks & Recreation, Recycling & Reuse, Rural Issues, Science/Technology, Senior Citizens, Solid Waste, Tourism and Hospitality, Training & Vocational Services, Transportation, Wastewater, and Water Supply/Quality.
- Eligibility:** A grid of checkboxes for eligibility types including Local Government, Academic Institutions, Consortia, Native American Tribe, Non Profits, Other, Private Sector, Schools/School Districts, and State Government.
- Attachments:** A section for Reference URL and Attach Files.

**Summary** is a text box to be used to summarize the overall project description and the user's agency work related to it. Please note if necessary, "N/A" or "TBD" can be used to satisfy this mandatory data field.

**Categories** are click boxes where only one category needs to be chosen (if desired, a user can click all categories that apply). The project type should be the determining factor for the category(ies) chosen. From the previously used *ISA* example (*Health Insurance Exchange ISA with Governor's Office*), one of the *Health* or *Human Services* boxes would be the appropriate choice.

**State Government** should be the only selection chosen within the **Eligibility** click box function.

The **Attachments** functionality is not mandatory either by eCivis or GFR, but a user should consult his or her own agency's policies and procedures. In the absence of any specific requirement, a user may want to upload the ISA, IGA, contract, etc. by using the **Attach Files** function. Additionally, a user could link this **Organization Funding** to the original funder by adding the funder's link to the **Reference URL** text box. By clicking the **Save** button; a user has now successfully created an **Organization Funding**. It will appear as the first listing on the **Organization Funding** page after clicking **Save**. From this point forward, a user would select that **Organization Funding** and follow the **Regular eCivis Usage** instructions of assigning that **Organization Funding** to either a previously or newly created project.

Please note that this is the first step in establishing a funding opportunity within eCivis. A user will have multiple opportunities to add additional information and make any necessary changes or edits.
